Beyond inspiration

Based in Korea and China, we support products and corporate promotional videos in various fields based on video shooting teams, commercial studio filming teams, documentary filming teams, and editing teams with more than 20 years of experience. Gorilla friends who love photos and videos gather to start our own little history. Our ideas are infinite. We love our work of making it happen and creating it. Only those who can enjoy work become the final winners. Join young gorilla friends who are not afraid of challenges. Social media and multimedia marketing ads are now a must, not an option. We focus on changing markets and consumers and survive the competition with differentiated marketing strategies. Gorilla Commercial Media will stick to the basics and add individuality. We will be an optimized marketing partner for your product promotion. We will realize greater value and become a partner who loves your brand.

Thank you. - THE TEAM GIRILLA
